#### **FINAL REJECTION**

## Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claim 1, line 6, the phrase: "pressure vessel" is indefinite and should be replaced with the phrase —pressurized vessel--.

In independent claim 1, lines 8-10, the phrase: "contacting the raw material of the lubricant with a supercritical carbon dioxide under a predetermined condition in the pressure vessel to extract perfluoropolyether compounds for removing ionic impurities," [emphasis added] is totally confusing in regards to what is actually being done. The examiner suggests substituting said indefinite phrase with the following phrase to correct this problem: --contacting the raw material of the lubricant with supercritical carbon dioxide under a predetermined condition in said pressurized vessel to extract ionic impurities from the raw material of the lubricant comprising a perfluoropolyether,--.

Independent claims 7 and 10-14 are all indefinite for all the same reasons independent claim 1 is indefinite and thus need to be corrected as such.

Application/Control Number: 10/620,773 Page 3

Art Unit: 1714

Independent claims 4 and 15 are indefinite because the two recitations of the phrases: "pressure vessel" are indefinite and should be replaced with the phrases —pressurized vessel--.

Dependent claims 2-3, 5-6 and 8-9 are being rejected here because they are dependent on rejected base claims.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 10-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Kazuali (JP2001-164279, publication date 06/19/2001, cited on IDS filed 7/17/03) in view of evidentiary reference "Fomblin Z Derivatives" Product Data Sheet by Solvay Solexix, Inc. 12/13/2002.

Please see pages 2-4 of the PTO Office Action mailed 12/14/2005 for the details of this prior-art rejection.

### Response to Arguments

5. Applicant's arguments filed 03/14/06 have been fully considered but are not persuasive to put the application in condition for allowance for the reasons set forth above. Additional examiner comments are set forth next. The examiner has accepted

Art Unit: 1714

applicant's arguments for patentability of "method" claims 1-9 over the previously made prior-art rejection over Kazuali (JP2001-164279, publication date 06/19/2001, cited on IDS filed 7/17/03) in view of evidentiary reference "Fomblin Z Derivatives" Product Data Sheet by Solvay Solexix, Inc. 12/13/2002. However, applicant's implied assertion that claims 10-15 are also patentable over said prior-art rejection, because they are in effect "product-by-process" claims is not accepted by the examiner. Applicant' is reminded that "product-by-process" claims are in fact "product" claims and the process of making is given little patentable weight outside of a clear and convincing showing that the product made by the claimed process is in fact new and unobvious over the prior-art. Since applicant has set forth no such showing, it is held by the examiner that the product produced by the process taught by Kazuali, does in fact anticipate applicant's claimed product.

Finally, Applicant's Terminal Disclaimer has been approved by the PTO.

## Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Application/Control Number: 10/620,773

Art Unit: 1714

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the date of this final action.

Prior-Art Cited But Not Applied

7. Any prior-art reference which is cited on FORM PTO-892 but not applied, is cited

only to show the general state of the prior-art at the time of applicant's invention.

Examiner Information

8. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Examiner Joseph D. Anthony whose telephone number

is (571) 272-1117. If attempts to reach the examiner are unsuccessful, the examiner's

supervisor, Vasu Jagannathan, can be reached on (571) 272-1119. The centralized

FAX machine number is (571) 273-8300. All other papers received by FAX will be

treated as Official communications and cannot be immediately handled by the

Examiner.
